Maho, Kurunegala | 076 8914226

PROFILE

B.Sc. graduate in Mathematics & Statistics (Physical Science) with strong analytical and problem-solving skills. Experienced in data analysis, statistical methods, and data visualization using Power BI, Excel, R and Python. Possesses internship and project experience working with real-world datasets and is capable of supporting data driven decision making in analytical and operational roles.

EDUCATION

- **Bachelor of Science (B.Sc.) in Mathematics & Statistics (Physical Science)**
Department of Mathematics & Statistics, Faculty of Science, University of Jaffna.
Graduated: Feb – 2026
- **G.C.E. Advanced Level – Physical Science**
Ibbagamuwa Central College – 2019
Results: Combined Mathematics – B | Physics – C | Chemistry – S | General English – B
- **G.C.E. Ordinary Level**
Ibbagamuwa Central College – 2015
Results: 9 A's

WORK EXPERIENCE

- **Intern – Engineering | Data Analytics**
MAS Fabrics Intimo | Engineering Department
March 2025 – December 2025

Data Analysis & Dashboarding:

- Extracted and evaluated complex manufacturing production data using Excel, Python, and SQL to identify operational trends and efficiency gains.
- Designed automated Power BI dashboards and tracking models to provide real-time visibility into key engineering metrics and KPIs.

Problem Solving & Process Optimization:

- Applied structured problem-solving methodologies including 5 Whys, Fishbone (Ishikawa) diagrams, and statistical root cause analysis to resolve engineering and production issues.
- Worked alongside cross-functional engineering teams to automate reporting routines and improve workflow accuracy across manufacturing operations.

- **Freelance Data Analyst & Graphic Designer / Independent Freelancer | Remote**
Nov 2025 – Present

Data Analysis & Business Intelligence:

- Built interactive Power BI and Excel dashboards to visualize key performance indicators (KPIs) and support data-driven decision-making.
- Conducted data cleaning, manipulation, and exploratory data analysis (EDA) using Python and SQL.

Graphic Design & Content Creation:

- Designed educational course materials, tuition cover pages, and promotional graphics using Adobe Photoshop and Illustrator.

SKILLS & TOOLS

- **Analytical & Statistical Skills:** Statistical Analysis | Hypothesis Testing | Problem Solving | Root Cause Analysis
- **Data & BI:** Python | R | SQL | Power BI | Excel | Google Looker Studio
- **Productivity & Design Tools:** VS Code | RStudio | Microsoft Office | Adobe Photoshop | Adobe Illustrator

PROJECTS

- **Knitting Machine Tracking Dashboard & Web App** (MAS Fabrics Intimo Internship)
 - Developed an automated Excel dashboard and Python (Streamlit) web application to track knitting machine availability, locations, serial numbers, and operational statuses.
 - Integrated Excel with Streamlit to enable real-time dashboard updates whenever underlying machine datasets were updated.
- **Garment Dyeing Water Consumption Prediction App** (MAS Fabrics Intimo Internship)
 - Built an interactive predictive web application using Python, R, and Streamlit to forecast monthly water consumption during garment dyeing processes.
 - Applied regression modeling to evaluate how varying operational parameters and production variables impact overall water usage.
- **More Projects, Portfolio:** [dinusha-sandakelum-portfolio](https://www.dinusha-sandakelum.com)
